## EDITOR'S FOREWORD

We are pleased to publish the book of Neil Hugh Rilett *Potential costs and benefits of Brexit: impact of European Union non-membership*.

For over 40 years, Mr. Rilett has been teaching economics at well-known business schools and universities in numerous countries, including the United Kingdom, Switzerland, Latvia and Colombia. He is currently also a non-executive Director of Amergeris Wealth Management Group AG.

In this essay, Mr. Rilett gives his reader an original insight into different aspects to be considered when evaluating the potential or probable impact of the EU non-membership on the economy of the United Kingdom. In his very personal style, the author analyses the consequences of Brexit within 5 distinct domains and then concludes with a challenging discussion and evaluation of what he identifies as the effects of Brexit. The book contains tables and graphs that help understanding this complex and intriguing topic.

The statistical data was provided by Mr. M'hamed Lahlou from FibreNat S.A.
